Brand at a glance

A Ghanaian technology company, incorporated in Kumasi on 30 July 2026. This guide covers the website, products, decks, documents, social media and print.

THE IDEA

Convergence.

Technology (blue) and growth (green) meet in one point of energy (orange): where African problems meet working software.

OUR PROMISE

Simple, reliable technology built in Ghana, for Africa.

Verge Blue

Technology and trust. The lead colour.

Growth Green

Growth, people, progress. The second colour.

Spark Orange

Energy and action. A small accent only.

The colour meanings are this guide's proposal. Keep them, or replace them with your own story and use it everywhere.

Name	Techverge Africa Ltd (short: Techverge). Never "Techverge African".
Mark	The V: a blue and a green stroke converging, joined by an orange tip
Typefaces	Sora for headings, DM Sans for text
Voice	Clear, confident, practical. Outcomes, not jargon.

Logo

The logo is the V mark. Use the supplied files only; never redraw it.

Clear space. Keep a margin of **x** on every side, where x is the height of the orange tip.

MINIMUM SIZE

24 px tall on screens, 10 mm in print. Below that, use the mark without any text.

LOCK-UP (UNTIL A WORDMARK IS DESIGNED)

Mark, then "Techverge" in Sora Bold and "Africa" in Sora Regular. Cap height about 40% of the mark; gap of half the mark's width. A designer should create the final wordmark.

Backgrounds and misuse

APPROVED BACKGROUNDS

Full colour on light grey, white or navy. Never on blue, green or orange fills, or busy photos.

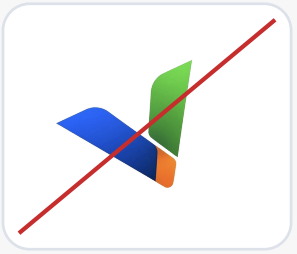

LOGO FILES YOU NEED

The current file is a JPG on a grey ground. Before launch, ask a designer for: a vector SVG; transparent PNGs at 512 and 1024 px; a one-colour white version; favicons at 32 and 180 px. The images in this guide use a cut-out of the JPG.

DON'T

Stretch or squash it

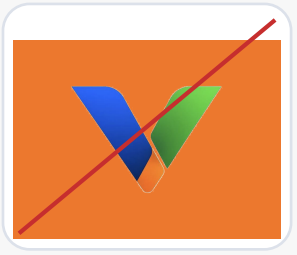

Rotate it

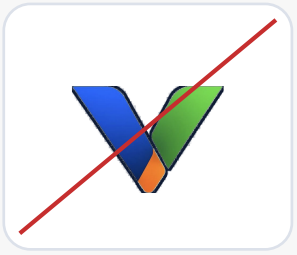

Change its colours

Add shadows or effects

Place it on brand colours

Add outlines

Colour palette

Every colour is sampled from the V mark. Use the token names in code; hex values are for design tools.

Verge Blue
#2D66F5
RGB 45, 102, 245
brand-blue

Growth Green
#5BAA42
RGB 91, 170, 66
brand-green

Spark Orange

Muted Ink
#4A5875
RGB 74, 88, 117
ink-muted

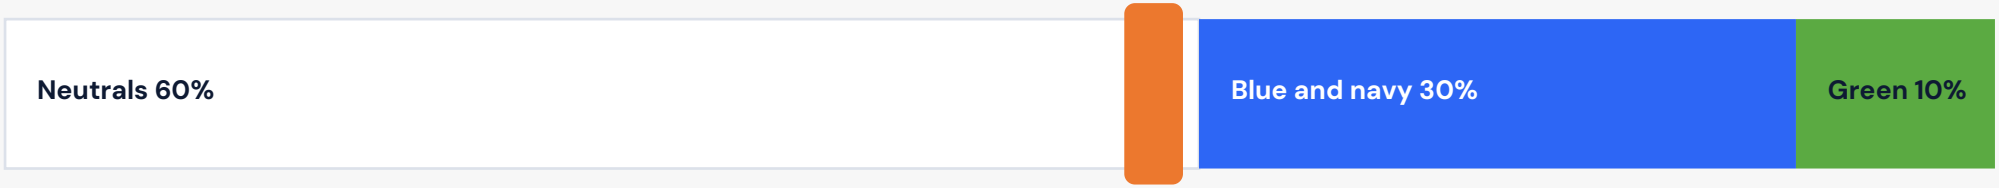

Ink
#0E1A33
RGB 14, 26, 51
ink

Dark theme values (for apps and the website's dark mode) are in the digital brand system. CMYK and Pantone matches should be confirmed with your printer from a printed proof.

Using colour

Calm neutrals, confident blue, a touch of green, and orange only where the eye should land.

PROPORTION

Orange under 5%: one accent per view

READABLE PAIRS (WCAG CONTRAST)

Aa — **White on Action Blue**
6.7 : 1 · Buttons, links

Aa — **Ink on Spark Orange**
6.0 : 1 · Accent badges

Aa — **White on Verge Blue**
4.9 : 1 · Large type only

Aa — **White on Growth Green**
2.9 : 1 · Never

Aa — **White on Deep Navy**
11.4 : 1 · Dark sections, footer

Aa — **Ink on Bright Green**
9.7 : 1 · Highlights on navy

Aa — **White on Spark Orange**
2.9 : 1 · Never

Status colours always come with a word ("Paid", "Pending", "Overdue"), so colour never carries meaning alone.

Typography

Two Google Fonts, free for any use. In Word or PowerPoint without them, use Arial.

Aa

Sora

Headings. Geometric and slightly wide, echoing the V's angles. Semi Bold and Bold.

ABCDEFGHIJKLM abcdefghijklm 0123456789
ABCDEFGHIJKLM abcdefghijklm 0123456789
ABCDEFGHIJKLM abcdefghijklm 0123456789

Aa

DM Sans

Text. Friendly and easy to read on phones. Regular, Medium and Bold.

ABCDEFGHIJKLM abcdefghijklm 0123456789
ABCDEFGHIJKLM abcdefghijklm 0123456789
ABCDEFGHIJKLM abcdefghijklm 0123456789

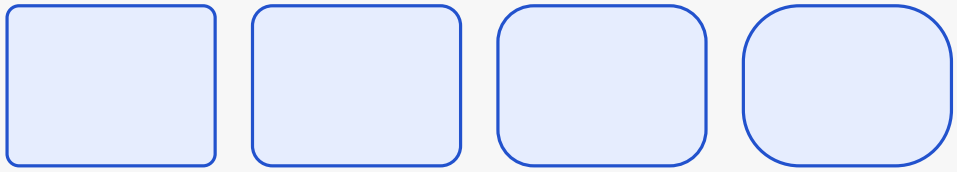

TYPE SCALE

Display	64 px	**Built for Africa**
Heading 1	44 px	**For every school**
Heading 2	32 px	**Our products**
Heading 3	22 px	**SchoolOS**
Body	16 px	Parents pay fees by MoMo and get an SMS receipt.
Label	12 px	**OUR PRODUCTS**

Sizes are for the web. Sentence case for headings; labels in capitals with letter spacing. On phones, display drops to 40 px and Heading 1 to 32 px. Keep lines to about 65 characters.

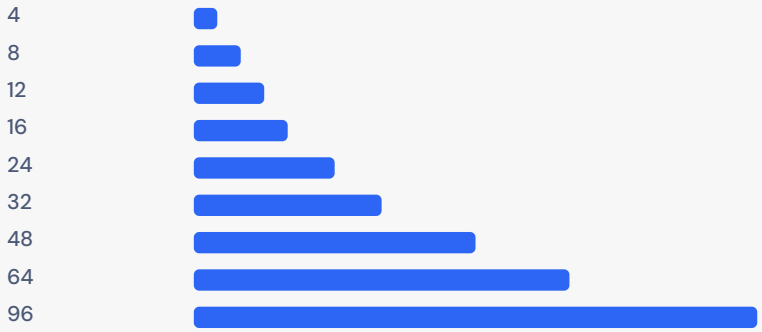

Shape, layout and imagery

SOFT CORNERS

Inputs 6 Buttons 10 Cards 18 Hero media 28

SPACING (4 PX BASE)

Sections: 96 px top and bottom on desktop, 64 px on phones. Cards: 24 px padding. Grid: 12 columns, 1200 px max width, 24 px gutters, 16 px minimum side margin on phones. Borders before shadows.

THE SLANT

The V's strokes lean at about 30°. Use one slanted element per view: a hero image edge, a section divider, chart bars.

ICONOGRAPHY

Outline icons, 1.75 px stroke, rounded ends, 24 px grid (Lucide fits). Ink or muted ink; Verge Blue only for the active item. A text label with every icon. No emoji.

IMAGERY

Real people and places: Ghanaian schools, offices, markets and teams in natural light, using phones and laptops. No posed handshakes or stock "tech" scenes. Product screenshots on white with 28 px corners and a soft shadow. Written consent before photographing children; avoid their faces in marketing.

Voice and tone

Techverge writes the way a capable engineer explains things to a busy head teacher: plainly, specifically and without hype.

Outcome first

Say what changes for the reader, then how.

True numbers

Use figures you can source. No inflated claims.

Phone-first

Short sentences and paragraphs.

Local and natural

MoMo, cedis (GHS), SHS, exeat.

Write this	Not this
Parents pay by MoMo and get an SMS receipt.	Revolutionising education payments with AI-powered synergy.
Built in Kumasi. Used in 10 schools.	Africa's leading disruptive platform.
Results reach parents in 3 days.	Lightning-fast results!!!
Book a demo	Click here to learn more about our amazing solutions

Say "we" for Techverge and "you" for the reader. Headings state the point. Buttons say what happens ("Book a demo", "Send message").

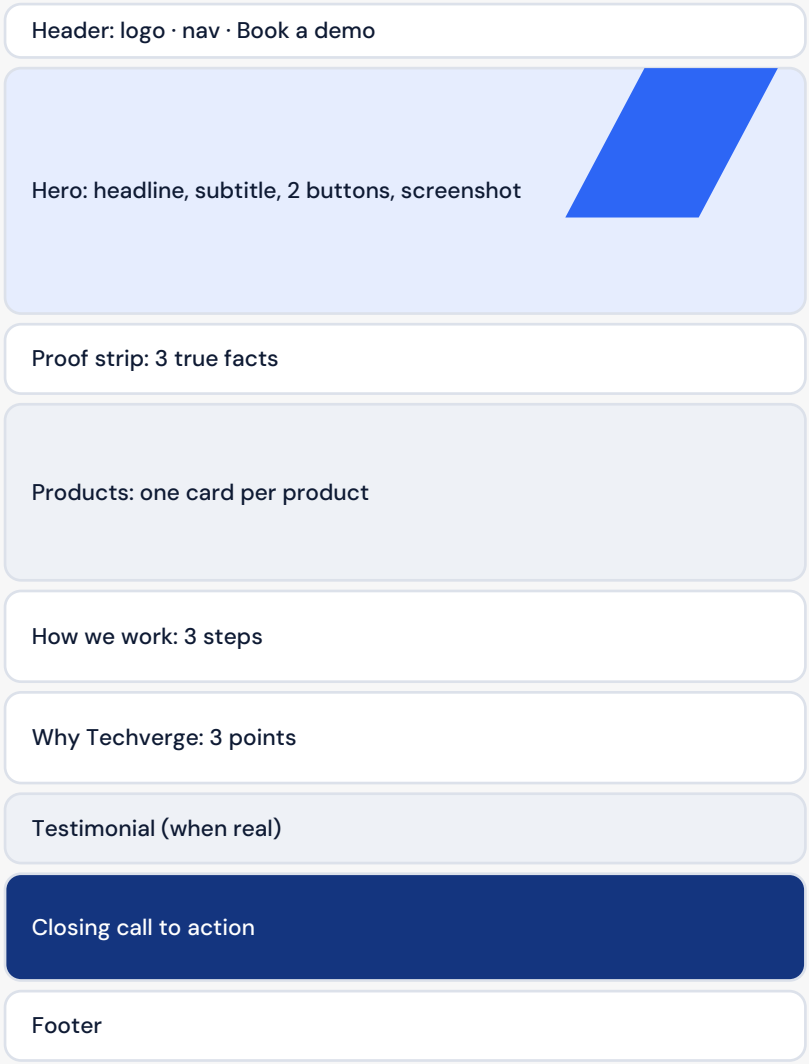

Website: sitemap

One job: help schools, businesses and public institutions understand what Techverge builds and start a conversation.

Page	Purpose	Main call to action
Home	What Techverge is, what it builds, why trust it	Book a demo
Products	Overview, then one page per product	See SchoolOS
Products › SchoolOS	Flagship product page	Book a SchoolOS demo
Solutions	Custom software for schools, businesses and government	Talk to us
About	Story, mission, team, company details	Meet the team

Contact	Form, WhatsApp, phone, email, Kumasi address	Send a message

Top navigation: Products · Solutions · About · Insights · Contact, plus a blue "Book a demo" button. Header is sticky and white with a thin bottom line.

Website: home page

Hero

Eyebrow "TECHNOLOGY BUILT IN GHANA". Headline: "Simple software for how Africa works." Subtitle: "We build reliable tools for schools, businesses and public institutions, designed for MoMo, SMS and the phones people already use." Buttons: Book a demo · See our products. SchoolOS screenshot on a slanted blue panel.

Proof strip

Three facts in Sora: e.g. "10 modules built since July 2026", "[n] schools onboarded", "Built in Kumasi". Only true numbers.

Products

Heading "Our products". A card per product, SchoolOS first: name, one line, 2–3 features, "Learn more".

How we work

1. Understand the problem on the ground. 2. Build on MoMo, SMS and USSD. 3. Support you after launch.

Why Techverge

Built for Ghana · Works on any phone · Secure by design (Data Protection Act, Act 843).

Closing

Navy panel: "Let's build what your institution needs." Book a demo. Footer: links, contact as plain text, "© 2026 Techverge Africa Ltd. Incorporated in Ghana."

Website: other pages and checklist

Product page (SchoolOS)

- Hero: name, promise, demo button, screenshot
- The problem in three cards
- Features with screenshots: MoMo fees, SMS, results, exeats, parent portal
- Built on MTN: MoMo, Bulk SMS, USSD
- Pricing per student per term
- FAQ: data protection, onboarding, training
- Closing call to action

About and Contact

- About: story in three short paragraphs; mission; team photos, names, roles
- Company details: Techverge Africa Ltd, incorporated in Ghana, 30 July 2026, Kumasi
- Registration numbers on invoices and contracts, not the website
- Contact: short form (name, organisation, phone, need)
- Phone, WhatsApp, email as copyable text; Kumasi address and hours
- "We reply within one working day."

Technical checklist

- Mobile first; home page under 1.5 MB
- WebP images, lazy-loaded below the fold
- Unique page titles and descriptions; branded share images
- Readable contrast, visible focus rings, alt text, labelled fields
- Privacy policy and cookie notice
- Analytics on demo bookings and contact forms
- Favicon from the V mark, 32 and 180 px

Print and social

BUSINESS CARD, 85 × 55 MM

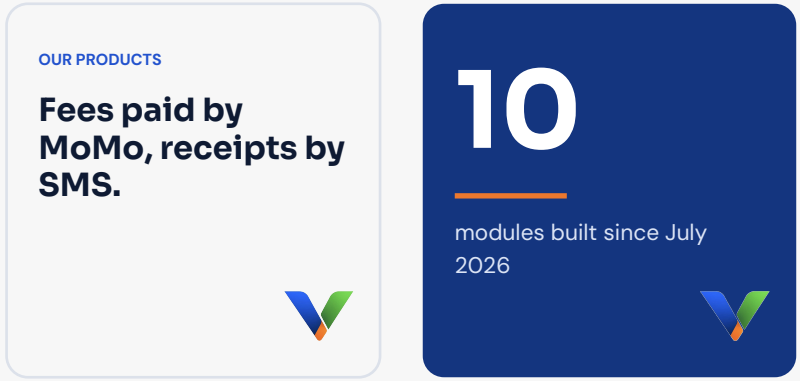

Front: mark on navy. Back: white, name in Sora, a short orange line, details in DM Sans. 350 gsm matte.

EMAIL SIGNATURE

[Full name]
[Role] · Techverge Africa Ltd
[Phone] · [Email]
[website]

Text only, optional 24 px mark. No quotes or banners.

SOCIAL POSTS, 1080 × 1080

Announcement (light) and big-number (navy) templates. Profile picture: the mark centred on white, readable at 40 px. Cover: navy with the lock-up and one line in white. At most three hashtags; no emoji in headlines.

Documents, products and next steps

Letterhead and documents

- Lock-up top left, 14 mm tall; contact details top right in 8 pt
- Footer: "Techverge Africa Ltd · Incorporated in Ghana" and registration number
- Body DM Sans 10.5 pt (Arial in Word), 25 mm margins
- Tables: grey header row, thin dividers
- Decks: 16:9, navy title slides, light content slides, titles that state the point

Products

- Each product is a sub-brand: its name in Sora, "by Techverge Africa" beneath
- Same palette and type; one extra accent colour allowed
- Buttons always in Action Blue, so products feel like one family
- Example: SchoolOS · by Techverge Africa
- File names: techverge-logo-full-colour-1024.png

Next steps

- Commission vector logo files and a wordmark
- Approve or adapt the colour story
- Build the website from this guide and the digital brand system
- Order business cards and set up email signatures
- Create social templates and update all profiles
- Review the guide after six months
